19–21 APRIL 2022 | LAUREL, MD

Accelerating Modernization for Operational Relevance
Align your organization with a highly-coveted audience within the defense community.

The AIAA Defense and Security Forum (AIAA DEFENSE Forum) is focused on aerospace technologies and their applications in national security. This Secret/NoForn event provides a venue for leaders from government, military, industry and academia to explore aerospace technologies and their application to complex national security challenges.

In today’s dynamic business environment, effective outreach and customer interface are vital to successfully capturing new partnership opportunities. If your company is looking for a mechanism to heighten visibility, expand networking capabilities among industry and military leaders, and demonstrate your unique value to aerospace professionals, AIAA’s sponsorship program can help to achieve your objectives.
