

ASHE Sustainability

Working together for a sustainable future

Health care facilities are dedicated to working together to become more sustainable by adopting environmental, social and fiduciary practices that support healthy, equitable and resilient environments and communities. In support of its mission of advancing the health of individuals and communities, ASHE provides strategic thought leadership, resources and programs to support health care organizations pursuing sustainability.

Partner with ASHE and health care facilities to share your solutions in supporting sustainability goals.

By joining the ASHE sustainability initiative, participating companies:

- Recognize that reducing the carbon footprint in healthcare will be based on the efforts of many organizations.
- Are committed to sustainable products and/or providing services that help hospitals reduce their carbon footprint.
- Offer sustainable production processes and fair pricing for sustainable products and services.
- Will promote the ASHE Sustainability Initiative at the PDC Summit and Health Care Facilities Innovation Conference through your media of choice (social media, website, print etc.) by using the official hashtag and "Working together for a sustainable future" tagline.
