The model codes used in the U.S. include several requirements that are specific to health care facilities, and with new editions of the codes introduced every three years, it can be difficult to keep up with the mandates of the adopted codes and referenced standards.

Join Lori Greene, DAHC/CDC, FDAI, CCPR, on September 29 for an overview of the model codes and standards that affect health care facilities: <http://ow.ly/CtzK50KBtvp>

 **American Society for Health Care Engineering**
September 9 at 11:02 AM · 🌐

Join JLL Technologies on September 22 to learn technology strategies that reduce risk, automate repetitive tasks and improve costs for healthcare facilities environments. Speakers will include Kevin Eaton, Kevin Zimmer and Matt Corbishley.

RSVP today! <http://ow.ly/OosU50KBxU>
